Sales Consultant
Shivnath Hyundai
02/2019 - 09/2021   *Durg*

CERTIFICATES

Autocad & Creo from CAD Academy, Durg (02/2015 - 10/2015)

PROJECTS

PORTFOLIO
- Personal website made using using vanilla html, css & javascript as frontend with responsiveness on all devices.
- A regex contact-form validation where users data is stored using MongoDB as database in backend.
- **https://www.nitishdecoder.tech**

CHAT-IN APP : (MERN application)
- Fully featured Scalable Chatting app, build in REACT-JS as frontend comprising Chakra-UI react components & modals.
- Integrated JWT & bcrypt for User Login & Sign-up Authentication.
- Users can create private Chatrooms & chat where messages & repeated data are managed using useState & useContext hooks respectively.
- Allowing Users Realtime chat using Socket.io connections.
- Usage of React Router for routing app to specific paths without refreshing the page.
- Node.js as a backend server using express framework to handle requests with middlewars for request-response cycle.
- User logins, messages and CRUD operations are integrated using mongoose schema & models, connected to database in Mongo Cloud.
- **https://mern-chat-in-app.herokuapp.com**

RECIPE APP
- React app where user searches for a food, which is stored as state variables by hooks.
- Specific recipe's are rendered using Fetch API request.
