Summary

- MERN stack developer with about 1 year of experience in developing and executing software solutions to enhance business productivity. Seeking a position of Software Engineer in a growth-oriented company where I can use my skills to the advantage of company while having scope to develop & get expertise in my own skills.

Experience

- **Globussoft , Bhilai (Chhattisgarh)**   Sept-2022 - July-2023
  Software Developer_NodeJs (Intern)
  Work-Force Management : This application is used to organize day to day employee tasks & projects in an organisation. Worked on server side programming.
  - Collaborated with Node backend team to develop REST APIs, following microservices architechture for different modules like admin, users, plans, projects, tasks & subtaks.
  - Worked on NoSql database with dynamic collection & aggregation methods in MongoDB.
  - Worked on Admin-Users login/register and role based authentication & authorization using JWT.
  - Developed Chat & Message module with api for private & group chats. Used multer for file uploading/sharing feature alongwith smileys, reply, delete, forward messaging options.
  - Developed Admin-Employee Notification UI for frontend built with Next.Js.
  - Developed Socket server for realtime chats & notifications.
  - Followed ES-6 standarization, agile methods and sprints under SDLC. Part of regular discussions & scrum meetings on Trello.

Projects

- MEDICAL RECORDS
  - Patient records like diagnostic info, payments, appointments are mantained by this app.
  - User email-verification with email sending link using nodemailer.
  - User Social Login using google 0Auth.2. And Redux used for user state management
  - https://patientrecord.vercel.app
- CHATMATRIX
  - Realtime chat application built with MERN stack and socket.io
  - Private chat, Group chat with latest message display and realtime new message Notifications.
  - Private Video Call feature with media controls built using WebRTC and peer.
  - Worked with different hooks, react-router-dom v6 and React Context.
  - Extensive use of material-ui, tailwind css for ui & styling.
  - https://chatmatrix.netlify.app
